Re: BLD00-01693

Dear Sir or Madam,

In regard to your requirement that we buy a new water meter with a size/capacity of 1" input with 1-1/4" service supply, we have investigated and found that our present meter's capacity is 1" with 2" service supply. Therefore the requirement for a new meter is not only superfluous, but actually is a reduction of the existing capacity.

Therefore, we hereby request a refund of the meter deposit.

Sincerely yours,

Gene Stemmann
Chairman,
Beautiful Savior Bldg. Committee
